

I want the FCC to know that I enjoy using the Instant Traffic and Weather on my XMRadio. I am a traveling consultant and take my XM with me on the road. Please reject NAB's Petition 04-160 and oppose HR 4026. I PAY for XM because I don't get the kind of service on the public airways. I am tired of the FCC meddling in what I want to hear. I am enjoying uncensored music and talk radio that is blocked by normal radio stations. I have chosen to pay for what I want. LEAVE XM and my right to pay for what I want alone! Tell Clear Channel and the other radio stations that the FCC is the reason why I am no longer listening to FM or AM radio.
